

MAXIMUM SECURITY LOCKS

VSR Dimple 2000
Quick Change LSR Lock

The Quick Change LSR Lock can be manufactured with either the Quick Change feature, which allows for rapid rekeying, or it can be manufactured with a singular code, providing a higher level of security. It has a strong, reversible key and a restricted keyway. The lock and key are manufactured and serviced by VSR Industries. On-site installation available worldwide.

VSR 5000

The VSR 5000 Cam Lock is a unique side-pin design offering maximum security. It is an ideal lock for all gaming applications available in standard sizes. It has keyway designs available in Cabinet, Push Lock, Padlock and Popout Lock. This restricted keyway is manufactured and serviced exclusively by VSR Industries. On-site installation available worldwide.

VSR Dimple SR
Patent # 5,685,184

The VSR Dimple SR Lock can be manufactured with either the Quick Change feature, which allows for rapid re-keying, or it can be manufactured with a singular code, providing a higher level of security. It has a strong, reversible key and a restricted keyway. The lock and key are manufactured and serviced by VSR Industries.

VSR Dimple 4000
Interchangeable Core Lock
Patent # 6,748,777

The patented IC Core Lock is manufactured with either the Quick Change feature, allowing rapid re-keying, or with a singular code, providing a higher level of security. Construction cores for the lock are available for factory installation. It has a strong, reversible key and a restricted keyway. Also available in a medium security 8-Pin. The lock and key are manufactured and serviced by VSR Industries. On-site installation available worldwide.
