

1050 POP OUT

- ◆ Features Medeco's patented Bi-axial system, rendering lock virtually 'pick-free'.
- ◆ Design prevents unauthorized copying of keys.
- ◆ Incorporates double locking system, requiring elevation and rotation to release sidebar locking mechanism.
- ◆ Extensive keying capabilities, ensuring customers of unique key codes.
- ◆ Hardened stainless steel rods on cylinder faces prevent drilling.
- ◆ All cylinders are UL 437 Listed and manufactured to NAMA dimensional standards.
- ◆ 1050 Popout has a bolt and shell constructed of solid steel, offering highest protection against forced entry and theft.
- ◆ Ideal for unattended vending machines.
