

SHIPPING PLUG LOCKS

COIN TURN LOCKS

The Coin-turn shipping lock is designed for use when security is not needed. The lock is nickel-plated brass and can be opened easily with a coin or screw driver.

THUMB TURN LOCKS

The Thumb Turn lock is for applications requiring no security. It is a nickel plated die-cast lock and comes with a 90 degree or 180 degree rotation option.

PLUG LOCKS

The Plug Lock is designed to fill existing holes. It is nickel plated brass and can be used in both metal or wood applications.
